+9647727795507 Manhalghanim846@gmail.com Mosul- Qayyarah

EXPERIENCE

Web Developer & Systems Designer

Freelance Projects

2022 - 2026 Mosul, Iraq

- Developed a web-based performance indicator system for academic departments at the University of Mosul to track efficiency and data-driven decision making.
- Designed and implemented an AI-powered academic chatbot supporting students of Management Information Systems from first year to PhD level, including course materials and academic guidance.
- Built a government budget distribution platform to simulate public fund allocation using structured data models and reporting dashboards.
- Handled systems analysis, database integration, and user interface development.

PSS Worker (Psychosocial Support)

SEDO (Sahara Economic Development Organization)

2026 Mosul, Qayyarah

- Delivered structured psychosocial support services to over 50 beneficiaries, including managing 2 complex cases and facilitating 2 community well-being initiatives.
- Conducted home visits and field-level beneficiary follow-up to assess needs, provide support, and document beneficiary progress.
- Conducted field data collection using Kobo Toolbox, completing beneficiary forms and ensuring accurate and complete records.
- Facilitated Group Problem Management Plus (Group PM+) sessions and maintained accurate participant and activity records.
- Documented beneficiary success stories and positive outcomes, capturing needs, interventions, changes, and results to demonstrate the impact of psychosocial support services.

Store Manager

Retail Market

2018 - 2021 Mosul, Qayyarah

- Managed daily store operations, inventory control, and customer service.
- Generated accurate monthly sales reports and financial tracking records, contributing to a 25% improvement in budget forecasting and inventory control accuracy.
- Improved workflow efficiency and supplier coordination.
